

Act No. 167
Public Acts of 2008
Approved by the Governor
June 26, 2008
Filed with the Secretary of State
June 26, 2008
EFFECTIVE DATE: June 26, 2008

**STATE OF MICHIGAN
94TH LEGISLATURE
REGULAR SESSION OF 2008**

Introduced by Reps. Brown, Accavitti, Clemente, Angerer, Mayes, Farrah, Palsrok, Nofs, Shaffer, Opsommer, Nitz, Walker, Emmons, Booher, Moolenaar, Huizenga, Meekhof, Hopgood, Melton, Hammon, Lahti and Lemmons

ENROLLED HOUSE BILL No. 5383

AN ACT to provide for the member-regulation of electric cooperatives; to prescribe the powers and duties of certain state agencies and officials; and to provide for certain penalties and remedies.

The People of the State of Michigan enact:

Sec. 1. This act shall be known and may be cited as the “electric cooperative member-regulation act”.

Sec. 2. As used in this act:

(a) “Board of directors” or “board” means the group of members democratically elected by the members of a cooperative electric utility to manage the business and affairs of the cooperative electric utility.

(b) “Commission” means the Michigan public service commission.

(c) “Cooperative” or “cooperative electric utility” means an electric utility organized as a cooperative corporation under sections 98 to 109 of 1931 PA 327, MCL 450.98 to 450.109, serving primarily members of the cooperative electric utility.

(d) “Electric utility” means a person, partnership, corporation, association, or other legal entity whose transmission or distribution of electricity the commission regulates under 1909 PA 106, MCL 460.551 to 460.559, or 1939 PA 3, MCL 460.1 to 460.10cc. Electric utility does not include a municipal utility, affiliated transmission company, or independent transmission company.

(e) “Member” means a person, partnership, corporation, association, or other legal entity that purchases electricity from a cooperative electric utility as a member of the cooperative.

(f) “Member-regulation” means the board of directors of the cooperative is charged with establishing, maintaining, and applying all rates, charges, accounting standards, billing practices, and terms and conditions of service.

Sec. 3. Cooperative electric utilities, which are owned by the members they serve, are regulated by their members acting through democratically elected boards of directors. It is declared that member-regulation by a cooperative in the areas of rates, charges, accounting standards, billing practices, and terms and conditions of service may be more efficient and cost-effective. The purpose of this act is to allow the board of directors to elect member-regulation for rates, charges, accounting standards, billing practices, and terms and conditions of service.

Sec. 4. To become member-regulated under this act, the board of directors shall comply with the following procedures:

(a) A director may propose to become member-regulated at any properly convened meeting of the board of directors. The board may not act on the proposal until 90 days has passed from the date the proposal was made.

(b) The board may only act on the proposal to become member-regulated at a meeting of the board for which written notice of the time and place of the meeting has been provided to all members of the cooperative. Notice to the members shall be written and delivered not less than 21 or more than 60 days before the date of the meeting and shall contain a copy of the proposal. Notice may be sent by first-class mail or may be published in a periodical issued by an association of cooperative electric utilities and mailed to each member of record of the cooperative.

(c) The meeting of the board of directors at which the proposal is to be acted upon shall be open to all members of the cooperative. The board shall allow members of the cooperative reasonable time to address the board prior to its acting upon the proposal.

(d) A roll call vote of the board of directors with 2/3 of the members voting in support of the proposal to become member-regulated is necessary for adoption of the proposal.

(e) The minutes of the meeting at which the proposal is acted upon, including the roll call vote, shall be provided to the members of the cooperative within 60 days from the date of the meeting in the same manner as the notice of the meeting at which the proposal was acted upon.

(f) The cooperative shall notify the commission in writing of the action of the board of directors on the proposal to become member-regulated within 10 days after the date of the action, and the cooperative shall become member-regulated as provided for in this act 90 days following the date of the notice to the commission.

(g) The board of directors may vote to rescind the proposal once adopted by following the same procedures that were followed in the adoption of the proposal.

Sec. 5. The members of a cooperative that has elected to become member-regulated may overturn the proposal adopted by the board of directors by complying with the following:

(a) An election to overturn the vote by the board of directors to be member-regulated shall be called not less than 120 days after receipt of a valid petition signed by 5% or 750 members of the cooperative, whichever is less.

(b) The proposition to overturn the vote by the board of directors to be member-regulated shall be presented to a meeting of the members of the cooperative, the notice of which shall set forth the proposition for member-regulation and the time and place of the meeting. The cooperative shall deliver written notice to members not less than 21 days or more than 60 days before the date of the meeting. Notice shall be sent in the same manner as the notice for the meeting at which the proposal was acted upon. The cooperative shall pay the costs to notify the members of an election under this subdivision.

(c) Voting on the proposition to overturn the vote by the board of directors to be member-regulated shall be by mail ballot, and internet, provided members attending the meeting provided for in subdivision (b) may execute and deliver their ballot to the cooperative during or at the conclusion of the meeting. Proxy voting shall not be permitted.

(d) If the proposition to overturn the vote by the board of directors to be member-regulated is approved by the affirmative vote of not less than 2/3 of the members voting on the proposition, and at least 10% of the total number of members cast a vote, the cooperative shall notify the commission in writing of the results within 10 days after the date of the election, and the cooperative shall no longer be member-regulated as provided for in this act 90 days following the date of the notice to the commission.

(e) A cooperative's members may vote no more than once every 24 months to overturn the vote by the board of directors to be member-regulated as provided in this act.

(f) If the proposition to overturn the vote by the board of directors to be member-regulated is approved by the members in accordance with this section, the board of directors may not act on a proposal to member-regulate as provided for under section 4 until 36 months from the date notice of the election to overturn the vote of the board of directors was provided to the commission under subdivision (d).

Sec. 6. (1) A cooperative electing to be member-regulated under this act shall, by board action, establish, maintain, and apply all rates, charges, accounting standards, billing practices, and terms and conditions of service in accordance with this act.

(2) Notwithstanding the provisions of this act, the commission shall retain jurisdiction and control over all member-regulated cooperatives for matters involving safety, interconnection, code of conduct including, but not limited to, all relationships between a member-regulated cooperative and an affiliated alternative electric supplier, customer choice including, but not limited to, the ability of customers to elect service from an alternative electric supplier under 1939 PA 3, MCL 460.1 to 460.10cc, and the member-regulated cooperative's rates, terms, and conditions of service for customers electing service from an alternative electric supplier, service area, distribution performance standards, and quality of service, including interpretation of applicable commission rules and resolution of complaints and disputes,

except any penalties pertaining to performance standards and quality of service shall be established by the cooperative's members when voting on the proposition for member-regulation or at an annual meeting of the cooperative.

Sec. 7. (1) A cooperative electric utility that is member-regulated under this act shall determine how rates and charges for service provided are to be established, maintained, and applied. The rates and charges shall reasonably reflect the costs of providing service and shall be uniform within the classes of service provided by the cooperative.

(2) The board of directors of a cooperative electric utility that is member-regulated may adopt, amend, repeal, or add to the cooperative's billing practices and service rules provided it has given written notice to members at least 30 days prior to the effective date of any action taken.

(3) Each cooperative which has elected to be member-regulated shall maintain and make available to the public an electronic copy of its rates, charges, accounting standards, billing practices and service rules, and terms and conditions of service on a website and shall maintain a paper copy at all offices of the cooperative for review by the general public. In addition, the cooperative shall provide a copy of the same to the commission as well as a copy of the cooperative's most recent audited financial statement.

(4) If a cooperative is member-regulated under this act, the board shall give at least 10 days' notice to all members of the cooperative of the time and place of any meeting of the board at which an increase in rates affecting at least 5% of the members or substantive changes in billing practices and service rules or terms and conditions of service are to be discussed and voted on. Any such meeting shall be open to all members. Notice under this subsection shall be sent by first-class mail to all members or may be published in a periodical issued by an association of cooperative electric utilities and mailed to each member of record of the cooperative electric utility.

Sec. 8. (1) A cooperative electric utility that is member-regulated shall publish notice of any rate change or any change in billing practices and service rules or terms and conditions of service at least 30 days prior to the effective date of the change.

(2) The notice under this section shall be sent by first-class mail to all members or may be published in a periodical issued by an association of cooperative electric utilities and mailed to each member of record of the cooperative electric utility.

Sec. 9. (1) The commission shall retain jurisdiction over all areas served and line extension disputes involving a cooperative electric utility that is member-regulated under this act and a regulated electric utility. This act does not limit the commission's jurisdiction over areas served and line extension disputes granted to the commission under any other law or statute. A cooperative electric utility that is member-regulated under this act shall operate in compliance with R 460.3411 of the Michigan administrative code, regarding extension of electric service in areas served by 2 or more utilities. The commission shall continue to possess all jurisdiction and authority necessary to administer and enforce the provisions of 1929 PA 69, MCL 460.501 to 460.506, and R 460.3411 of the Michigan administrative code with respect to member-regulated cooperative electric utilities.

(2) When a member-regulated cooperative is required to give notice to the commission and any affected electric utility of its intention to extend service to a prospective customer as required under R 460.3411 of the Michigan administrative code, the notice shall also include the charge to extend service, if any, and the rate or rates for the service offered.

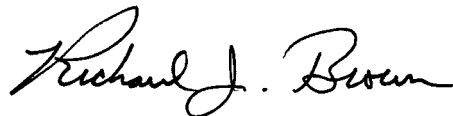

(3) If the electric utility, after being notified under R 460.3411 of the Michigan administrative code, believes that a cooperative that is member-regulated under this act either proposes to unlawfully extend service to a prospective customer or has offered an unjustly preferential charge for extension of service or unjust rate to a prospective customer and that prospective customer could otherwise be served by the electric utility pursuant to the commission's rules for extension of electric service, the affected electric utility may file an objection with the commission. Any objection allowed under this subsection shall be filed within 60 days from the date notice of the intent to extend service was provided by the cooperative. If an objection is filed by the utility notified under R 460.3411 of the Michigan administrative code, the commission shall first determine whether the complaining utility or the cooperative, or both, have the lawful right to provide service to the prospective customer and then, if necessary, determine whether the charges or rates offered by the cooperative are just and reasonable based on the cooperative's cost of service. That determination shall be made at a contested case proceeding conducted pursuant to chapter 4 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.271 to 24.287. A cooperative's charges or rates offered to a prospective customer shall be considered just and reasonable upon a showing by the cooperative that the charges to extend service to a prospective customer and the rates offered are equivalent to the cooperative's charges to extend service and rates charged to other similarly situated customers served by the cooperative. If the cooperative does not provide service to other similarly situated customers, the cooperative shall demonstrate that its charges to extend service and the rates offered to the prospective customer are just and reasonable based on the cooperative's cost of providing service to the prospective customer, consistent with industry practice. At the choice of the customer, either the electric utility or the member-regulated cooperative may provide service to the prospective customer until the commission determines the appropriate service provider.

(4) A municipally owned utility that has entered into a service area agreement with a cooperative in accordance with section 10y(6) of 1939 PA 3, MCL 460.10y, may file an action in the circuit court in the district where the cooperative's main office is located alleging that a rate or charge offered by the cooperative is unjust and unreasonable. An action filed under this subsection shall be filed within 60 days after the municipally owned utility becomes aware of the rate or charge. In determining whether a rate or charge is just and reasonable, the circuit court shall use the standards set forth in subsection (3) for determinations made by the commission. If the circuit court determines that the rate or charge offered to the prospective customer is unjust or unreasonable, the court shall order the cooperative to assess the appropriate rate or charge to the prospective customer. Notwithstanding any law to the contrary, if the circuit court issues an order under this subsection, any prospective customer directly affected by the order shall be permitted by the cooperative to switch service to the objecting municipally owned utility, if the affected customer has given the cooperative written notice of the customer's intent to switch within 60 days from the date of the court's order and the objecting municipally owned utility agrees to pay the cooperative the reasonable value, as determined by the circuit court, of its facilities that will continue to be used to serve the customer by the objecting municipally owned utility.

(5) If the commission finds that an electric utility or cooperative providing temporary service to a customer under this act is not a lawful service provider for that customer, the commission shall order service to that customer transferred to the lawful provider. That order shall require the provider acquiring the customer to pay for the reasonable cost of the facilities, as determined by the commission, constructed to serve the transferred customer, which will be used by the acquiring provider to serve the transferred customer.

(6) If the commission finds that the cooperative is a lawful service provider but the cooperative's charges to extend service, if any, or the rates offered to the prospective customer are unjust or unreasonable, the commission shall order the cooperative to assess the appropriate charges to extend service and assess the appropriate rates to the prospective customer. Notwithstanding rules to the contrary, if the commission issues an order under this subsection, any prospective customer directly affected by the commission's order shall be permitted by the cooperative to switch service to the objecting electric utility, if the affected customer has given the cooperative written notice of the customer's intent to switch within 60 days from the date of the commission's order and the objecting electric utility agrees to pay the cooperative the reasonable value, as determined by the commission, of its facilities that will continue to be used to serve the customer by the objecting electric utility.

This act is ordered to take immediate effect.

Clerk of the House of Representatives

Secretary of the Senate
